

The GFM226 is a portable CO₂ detector for air quality in confined spaces. It measures elevated levels of CO₂, and reduced levels of O₂, by analysing the ambient air within the space. Designed to be both lightweight and portable, the GFM 226 CO₂ analyser is used worldwide for security operations and indoor activities. Operation is extremely simple, yet the readings obtained are comprehensive and accurate.

Applications

Stowaway Detector

- 2 gas analysis channels - Only one range can be chosen
- Simple reporting - via SiteMan PC software
- Small portable design - easy to hold in one hand
- 12 month service interval

Key Benefits

Suitable Solutions

Gas Data equipment has a wide range of internal gas sensors and external attachments, giving you the choice and freedom to purchase your monitoring solution tailored to your operations.

Real-Time Data

The GFM series supports site operations in the best possible way. Quickly and easily, it captures information in just a few minutes, giving you visibility of the production and quality of the gases.

Cost-effective

Versatile, lightweight and easy to use. The GFM range doesn't require any specialist knowledge, delivering valuable data at your fingertips. A 4-hour charge from flat provides 8 hours of continuous use.

Technical Specifications

General	
Dimensions	230mmx100mmx65mm
Weight	1kg
Ambient Temperature Range	-10°C to 40°C
Protection Rating	IP65
Aspiration Rating	500mil/min

Gas Measurements				
Channel	Sensor Type	Range	Resolution	Accuracy
CO2	IR	0-10000ppm	10ppm	±500ppm
O2 (optional)	EC	0-25%	0.1%	±0.1%

All GFM's are available to hire or purchase. Please contact our team for details.

Advantages of our Annual Servicing & Calibration offering are:

- Complete service of your instrument including, replacing any faulty parts or parts nearing the end of their life
- Recalibration of the instrument
- Highly experienced servicing team, equipped to service, calibrate and repair your instruments worldwide
- Excellent customer service and response time
- 12-month warranty covering any parts required
This is intended to cover internal component failures. Faults caused by negligence, accident, physical damage, missing parts e.g. (gas filters and batteries), will not be repaired free of charge, but cost estimates will be supplied for approval before any work is done
- Gas Data arranged collection and delivery of your instrument (the UK addresses only)
